

Caribou and People: A Shared Future

FANTASTIC resource! It will most certainly become THE teaching tool for resource management! It is VERY useful having all of the materials together in one package!

Christina Sitzer, St. Pat's High School, Yellowknife

The inclusion of power points . . . great touch! This makes the resource usable out of the box. Please keep making these. They are life savers.

Mark Harewood, Chief Albert Wright School, Tulita

LOTS of great multimedia resources with a terrific mix of hands on ideas and reading/writing/reflection activities.

Sheena Adamson, Samuel Hearne Secondary School, Inuvik

Very informative, well planned and user friendly. The pictures and videos are also very interesting and I'm sure students will be interested because it's caribou.

Dene McDonald, Angik School, Paulatuk
